

I have a dream:

A social balance for the society in Hungary.

I have a request:

A fair part of your personal/companies 1% IncomeTax – as a support for my FOUNDATION.

Please help me, so that jointly we can make a difference.

Just fill in the ID of my FOUNDATION, the % of your support, the rest goes its own way.

This I guarantee with my Foundation and my name.

Erika Habsburg-Lorraine

YOU have to help the vulnerable people !

The need for help is still high in Hungary – even 22 years after the fall of Iron Curtain. Hospitals, Kindergartens, Homes for elderly and other Social institutions can hardly survive without external support.

Since the beginning the **EILIKA HABSBERG FOUNDATION** collects donations, in kind or financial, to help these Institutions, after a profound analysis of their needs.

Collaborating with a circle of friends in Germany we, following the principle „ **Help with Trust**“, look there for in kind contributions and bring them to Hungary. All done with the help of volunteers.

That we do since more than 12 years. During this time we managed to provide more than 62 t of helping material.

During this period we helped with this in kind contribution where it was needed most.

To the helpful sponsors, numerous companies in Germany we give a partnership – a special thank you from the FOUNDATION for their support and engagement.

With this we support the social balance in Hungary

OUR kids need OUR support

Education and a socially correct formation should be our aim for all children.

In the **EILIKA HABSBURG FOUNDATION** we look after children. After all children, but particularly after handicapped children. The children who are excluded usually socially.

With our initiative of the therapeutic, handicapped horse riding, we could already help many children to be able finding their way into the social community. Disabled people horse riding is an academically approved possibility for handicapped children to strengthen their selfconfidence and to help them so to take part in their life. In the early support the smallest come out quite strongly and find their balance, the way into the nature, the friendship to a pony – which carries and endures them. This promotes their emotions, language development and physical coordination.

Therefore, we do this.

As we need for this well-qualified and characterly strong horses, the FOUNDATION supports also in Hungary, the protection of animals and promotes the natural keeping of horses. Particularly for horses, but also domestic animals like cats and dogs.

Thus takes one into the other.

Protection of animals as an obligation and as means for the purpose of.

We give also the possibility to learn horse riding / vaulting to children whose parents most likely cannot afford it financially. We do this because we know, what an unbelievable sense of responsibility, luck and trust / confidence, plenty of fresh air and basic fitness more than any other sport this sport brings to the kids.

Thus we try to contribute that in Hungary the social balance in society is promoted in every regard.

We do this with body and soul. To the benefit of the country.

We offer our help to kindergartens, schools and universities and other teaching facilities, so that teaching materials and study means can be financed. We want to create conditions, that allows children to get a sound education and training.

For a socially balanced society and for the future of Hungary.

DISASTERS EMERGENCY relief in the need.

Which disaster may strike us also always, immediate help support is our aim to the relief of human destinies. The last year offered more tragedies than us to all was dear.

THANK YOU SO MUCH FOR YOUR TIME AND SUPPORT !
